# GET THE PHOTOS OF YOUR DREAMS

Congratulations on your engagement... now what?! Weddings can be stressful, but your photo experience does not have to be. I strive to curate an experience that will capture your love in a way that emphasizes authentic connection and timeless moments.

## MY PHILOSOPHY

---

I believe in everyone's right to love and want you to feel nothing but supported on your special day.

Photos should be a reflection of genuine moments and emotions between you and your partner. I strive to build a relationship with you so that you are comfortable with me before I get behind the camera. I incorporate prompts to create moments that will reflect genuinely in photos. I use a combination of candid and more classic poses to provide you with a variety of stunning photographs.

# WHAT I OFFER

---

My goal as your photographer is to build a relationship with you prior to your wedding so that on your special day you can focus on what is most important.

I strive to create an environment where you and your partner are comfortable with me and I fully understand your vision for your wedding photos. Here are some ways I build this relationship with my clients:

- Coffee or lunch on me at least a month before your wedding date to talk about details and photos
- Custom photo timelines for the day of the wedding including an overall timeline and timelines built specifically for the bridal party and their families
- Special discount on engagement session for my wedding couples so that you can get more comfortable with me behind the camera!
- Working hand in hand with wedding coordinators and vendors to ease your stress
- Payment plans available for all packages to ease your stress and work with your budget
